Collaborating for a sustainable workforce

International Recruitment of Clinical Healthcare Professionals

NHS Procurement in Partnership and Crown Commercial Service (CCS) are two public sector organisations that have come together in collaboration with the intent to explore the whole portfolio of health workforce services as part of a new Workforce Alliance. Suppliers and customers will benefit from this strong partnership that brings together extensive expertise and experience.

What is the framework?

The International Recruitment of Clinical Healthcare Professionals framework, launched in March 2019 for two years, has an option to extend for a further period (max four years). The framework is in response to, and addresses recommendations set out in the NHS Long Term Plan and the NHS Interim People Plan.

The framework addresses the NHS need to increase international recruitment to fill existing vacancies. By offering a compliant route to market the framework ensures compliance with NHS pre-employment standards, connecting trusts with dedicated staff working hard to treat people with care, compassion and dignity.
